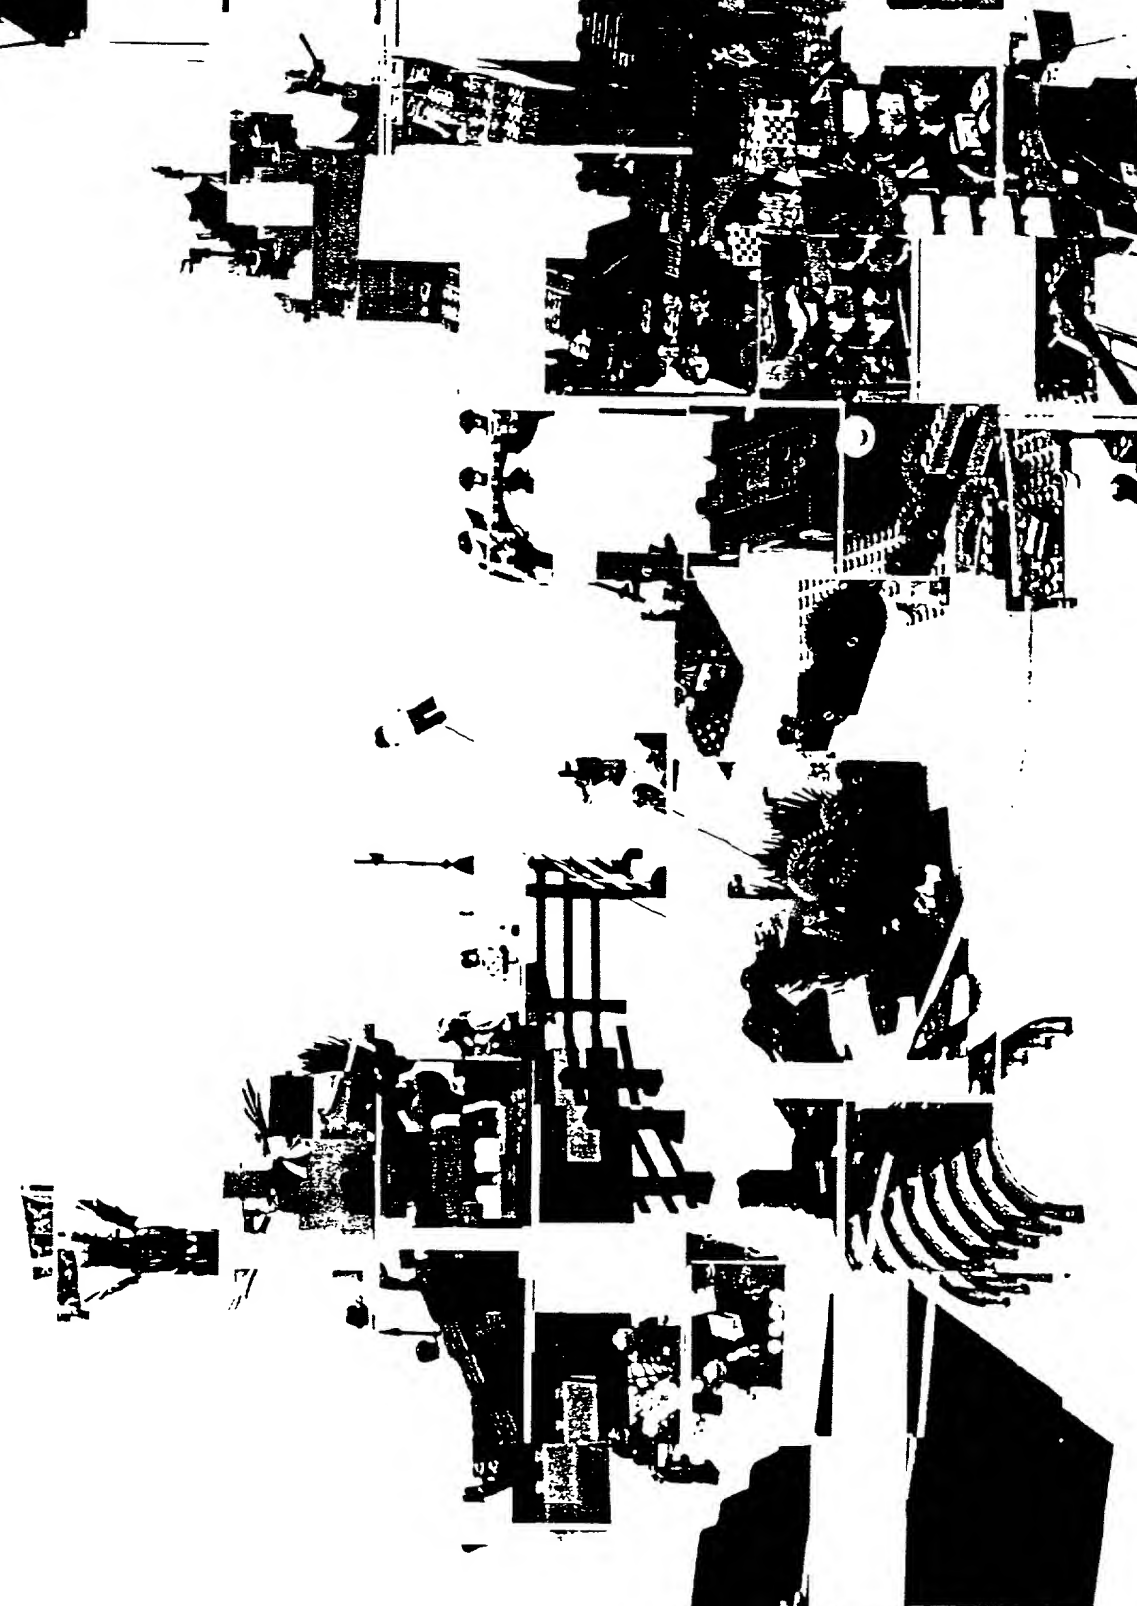

FIG. 3

How do you keep up with the ever changing Landscape?

A high-contrast, black and white collage of various architectural and landscape elements. The composition is dense and overlapping, featuring a variety of structures and natural forms. On the left, there's a tall, dark, conical structure resembling a lighthouse or a tower. Below it, a smaller, more complex structure with multiple levels and a small flag is visible. In the center, a large, dark, rectangular building with a flat roof is prominent. To its right, a tall, thin, vertical structure, possibly a chimney or a tower, rises. The right side of the collage is filled with a dense cluster of various elements, including what looks like a large, dark, rounded shape, possibly a tree or a large object, and several smaller, more intricate structures. The overall effect is one of a complex, ever-changing landscape, with elements that seem to be floating or overlapping in a non-linear fashion. The high contrast creates a stark, almost abstract quality, emphasizing the shapes and forms of the various elements.

How do you keep up with the ever changing Landscape?

A high-contrast, black and white collage of various architectural and landscape elements. The composition is dense and overlapping, featuring a variety of structures and natural forms. On the left, there's a tall, dark, conical structure resembling a lighthouse or a tower. Below it, a smaller, more complex structure with multiple levels and a small flag is visible. In the center, a large, dark, rectangular building with a flat roof is prominent. To its right, a smaller, more ornate building with a gabled roof and a small flag is visible. The bottom right corner features a large, dark, rectangular shape, possibly a building or a landscape element. The overall style is graphic and abstract, with a focus on geometric forms and high contrast.
